A dedicated and adaptable professional with a robust background in Multiplatform Application Development and a degree in Early Childhood Education. My inherent curiosity and relentless pursuit of self-improvement have driven me to delve into software development, where I have uncovered a new vocation. I seek an opportunity to leverage my technical expertise and skills in a challenging environment, contributing to the success of software development initiatives.

PROFESSIONAL EXPERIENCE

Programmer | Zaitec

March 2025 - June 2025

- Team Management, Frontend and Backend roles in a Haier air conditioning simulation project utilizing Unity.
- Learning experience during my DAM FCT internship.
- Collaborative efforts in which I developed the pause menu, simulator user interface system, drag-and-drop functionalities, user guide corrections, and participated in client meetings.

Nanny | Personal

2022-2025

- Preparation of an unregulated educational initiative
- Comprehensive childcare
- Conducting educational activities and games.

Higher Technician in Early Childhood Education | Yes Mommy
